Application: 550-1200 Ltr/145-317 gal. of water
Ozone output: 100mg/h
Voltage: 220-240V AC 50/60Hz
Power: 8-10W

FR ZENTUBS

OZONE GENERATOR

Model No.: TCB-134
Application: 550-1200 Ltr
Ozone output: 100 mg/h
Power: 8-10W

Features:

- Easy to operate
- Max. using time of 30 minutes, stop at least 10 minutes for every 30 minutes of using. (do not use ice bath while working)
- Kills up to 99.99% of bacteria, viruses, molds by using 2-3 times a week. When using the ice bath daily, recommended usage of the ozone generator is recommended.
- For maximum convenience: schedule your ozone generator usage with a smartplug

Warning:

- Before using the ozone, make sure all parts are well connected.
- The machine contains high voltage parts. Do not disassemble it to avoid potential hazards.
- Direct inhalation of ozone is strictly prohibited. Do not use ice bath when the ozone generator is working.
- If the ozone is used in an enclosed small room, do not stay inside until the ozone generator is turned off and the room is ventilated for 15 minutes.
- When using the ozone generator, put only the air pipe into the water. The machine itself cannot be immersed in water. Keep it in a safe place to ensure that the ozone will not fall into the water.
- Children are prohibited to use the machine.
- When the ozone generator is in use, pull out the plug from the power supply.
